Six day Training Program on Empowering Panchayat Raj Institutions Spatially (EPRIS) at Central Training Institute in Ranchi, Jharkhand.

Date : 19-12-2016 to 24-12-2016

Venue : Central Training Institute, Department of Panchayati Raj, GoJ, Hehal, Ranchi

JSAC has conducted six day training program for Gram Sewak of Ranchi District in CTI, Hehal. Empowering Panchayat Raj Institutions Spatially is a comprehensive outreach programme initiated by ISRO, DOS to build the capacity of grassroots level planners towards spatial resource based integrated development & planning in rural area. The Project aim is to empower Panchayati Raj Institutions in making development plans, implementation and monitoring through the operational procedures and utilization of database prepared with space base input. The main goal is to empower Panchayati Raj Institutions for resource based and integrated spatial development planning in a user friendly enabling environment.

Ranchi district has been selected for pilot basis. The scope of work includes

- (i) Capacity building of Empowering Panchayati Raj Institutions, support functionaries and facilitators.
- (ii) Asset Mapping with help of facilitators.

The resource people are:

1. Sri Ravish Kumar, Junior Scientist, JSAC
2. Sri Rahul Kumar Singh, Cartographer, JSAC
3. Sri Somnath Maiti, Project Scientist, JSAC

The training started with welcome speech by the Principal, Central Training Institute. The Panchayat Sewaks from different blocks of Ranchi district participated in the training program. The details are as follow;

S.No	Group	Panchayat Sewak	Date	Block
1	Group 1	35	19-12-16	Angara , Bundu, Ormanjhi
2	Group 2	18	20-12-16	Burmu , Itki, Nagari
3	Group 3	21	21-12-16	Kanke, Ratu
4	Group 4	27	22-12-16	Mandar , Namkum , Rahay , Khalari
5	Group 5	31	23-12-16	Silli , Sonahatu , Bero
6	Group 6	15	24-12-16	Tamar, Chanho, Lapung

The resource persons briefed about the EPRIS project. They explain the Bhuvan Panchayat WebGIS based portal and their uses, which was developed by National Remote Sensing Center, Hyderabad. They also briefed about the Bhuvan Panchayat Mobile application and gives demonstration on how to capture the different assests and photographs. Panchayat Sevaks having smart phone were more enthusiastic with mobile application. They have also done practical inside the Central Training Campus. Some other technical issues were also been raised regarding Asset mapping, Panchayat Sewak stated as follows;

- (i) They already holding charges of two to four Panchayat and overloaded with government activity.
- (ii) Most of them don't have smart phone, they suggest that can we take help from computer operator.
- (iii) They also enquired about any budget for internet and smart phone.

The training ended successfully on 24-12-2016.
